

Explained variance & theory completeness

Jonas Gathen

2018-06-22

This post deals with a general topic I have long thought about and which touches upon many different areas of applied work. I recently attended a conference on the developmental origins of economic preferences here in Toulouse, organized by the wonderful <https://www.iast.fr/conferences/2018-developmental-origins-economic-preferences> , which put this topic back on my mind and made me want to write this piece.

There were basically two
